

# Project Design Phase-II

## Data Flow Diagram & User Stories

Team ID : PNT2022TMID41005

### Data Flow Diagram:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored. Example: DFD Level 0 (Industry Standard)

## User Stories

Use the below template to list all the user stories for the product.

| User Type               | Functional Requirement (Epic) | User Story Number | User Story / Task  | Acceptance criteria   | Priority | Release  |
|-------------------------|-------------------------------|-------------------|--|---|----------|----------|
| Customer (Web user)     | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password.  | I can access my account / dashboard                                   | High     | Sprint-1 |
|                         |                               | USN-2             | User will receive confirmation email once he have registered for the application   | I can receive confirmation email & click confirm                      | High     | Sprint-1 |
|                         |                               | USN-3             | User can register for the application through Gmail.   |   | Medium   | Sprint-1 |
|                         | Login                         | USN-4             | User can log into the application by entering email & password.  | I can get to access my web portal                                     | High     | Sprint-1 |
|                         | Dashboard                     | USN-5             | User can get to know what my dashboard consists of.  | I can my details of my registration.                                  | Low      | Sprint-2 |
| Customer Care Executive | Organization                  | USN-6             | <ul style="list-style-type: none"> <li>Consumers will have the ability to contact the company that owns this aeroplane analysis system if they have any issues with the system for interacting with customers or if there are any problems with the aeroplane itself, such as delays or landing in an unexpected place.</li> </ul> | The customer care workers will help out the customers in trouble.     | High     | Sprint-1 |
| Administrator           | Administration                | USN-7             | Organization takes in-charge of the administrative policies of different departments like: <ul style="list-style-type: none"> <li>registration</li> <li>flight booking</li> <li>delay visualization</li> <li>generation of delay report</li> </ul>   | As an administrator, confirmation of user while registration is done. | High     | Sprint-1 |
